

## New Member Benefit from Life Line Screening

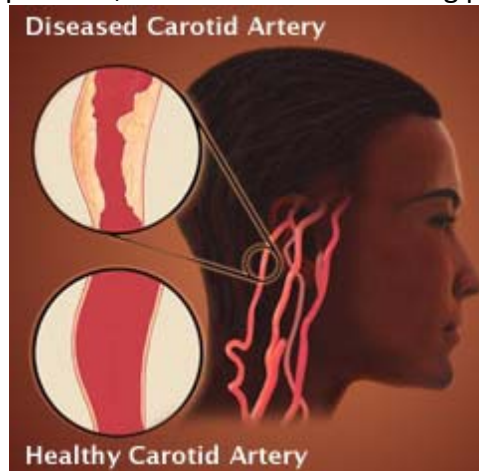

National Slovak Society (NSS) would like to introduce a new membership benefit now available to you and your family. NSS has partnered with Life Line Screening, the nation's largest mobile, vascular screening provider in the country. Anywhere our members are located, Life Line Screening has local presence through community events at various locations and times of the year, which you can take advantage of through our discounted member program.

Life Line Screening offers painless, noninvasive ultrasound screenings for stroke and vascular disease. These are tests that are often not part of routine physicals and can only be ordered by your doctor if symptoms are present, and by then, many times – it can be too late. In fact, every year in the United States, stroke strikes 750,000 victims, killing 160,000 and forever changing the lives of those who do survive. Prevention is key.

The 4-test package includes ultrasound screening for stroke/carotid artery disease, abdominal aortic aneurysm, peripheral vascular disease and 6-lead EKG for atrial fibrillation.

Take a moment to learn more about Life Line Screening's offerings and when they will be in your neighborhood by following this link: [www.lifelinescreening.com/memberbenefits](http://www.lifelinescreening.com/memberbenefits). Please call to find the next event in your area or make an appointment for you and your family members by calling **1-866-964-5845**, please mention **priority code: CSMS-015** when calling. The cost is a member discounted price of \$135 for a 4-test screening package.

*Carotid Artery Disease has the same risk factors as heart disease.  
80% of stroke occur from Carotid Artery Disease – be screened today.*
